

## *LifeTime Composites LLC*

---

### **TOOLS**

- Standard woodworking tools can be used when working with LifeTime lumber products.
- For best results, use carbide tipped blades.
- Safety goggles and protective clothing are recommended.

### **STORAGE & HANDLING**

- Do not dump when unloading.
- Lift boards when removing one from a stack. Avoid dragging boards across each other.
- Store on a flat surface supported every 24 inches.
- Discard scrap with normal construction or household waste.
- Because it contains plastic, LifeTime must not be burned.

### **CLEANING**

- Periodic hosing and sweeping will keep your LifeTime product looking its best.
- LifeTime Lumber will resist most stains and can be cleaned in most cases by using mild soap and water.
- For any stains that are difficult, use a citrus cleaner, then rinse thoroughly.
- Harsh chemicals, power/pressure washing, and use of hard bristle and brushes are not recommended.

### **PAINTING/STAINING**

- LifeTime Lumber does not require painting. However, it can be painted.
- If painting new boards, no primer is required.
- If painting boards that have been in place for a year or longer, use a primer for water based paints.
- Paint with a latex brand paint equal to Lowe's Home Improvement.
- Do not use oil-based paints or paint removers on LifeTime Lumber.
